Profile

Aspiring BS Computer Science graduate at the University of Cebu Main with a solid foundation in programming, AI, and software development. Eager to apply my skills in real-world projects and contribute to innovative tech solutions.

Education

Bachelor of Science in Computer Science, 2021 – 2025
University of Cebu - Main Campus [🔗](#)
• Graduated with Cum Laude

Projects

Portfolio, *HTML CSS Javascript*

Link: <https://salabsab.netlify.app/> [🔗](#)

- Developed a portfolio project that showcases my capability to design a basic static webpage using HTML, CSS, and Javascript to achieve an aesthetically pleasing design and interactivity.

Handwritten Recognition Mobile Application, *React Native, Expo, Flask, Tensorflow, Python*

- Developed a mobile app using React Native (Expo) to convert handwritten text into digital text.
- Built a Flask back-end integrated with a TensorFlow handwriting recognition model for image-to-text conversion.

Faculty Evaluation System, *Thesis, Python, Flask, Pytorch*

- Collaborated with thesis group to develop Faculytics, a web-based system for extracting and interpreting insights from qualitative faculty evaluation feedback.
- Developed a fine-tuned sentiment analysis model using Huggingface's BERT.
- Contributed to backend development using Flask.
- Handled frontend responsibilities using Jinja templating and Tailwind CSS to create a responsive and user-friendly interface.

Skills

Communication	Debugging and Troubleshooting
Teamwork	HTML/CSS/Javascript
Time Management	C# ASP.NET
Flexible	React
Prompt Engineering	Flask Python
Java	Technical Documentation
